## Frontend Developer

sribalajianbarasu@gmail.com • Chennai

### Profile

Experienced software developer with a proven track record of being part of successful projects for automobile brand websites, investment banking applications, and retail operations. Skilled in modern front-end technologies, performance optimization and have experience in developing automation tools.

### Professional Experience

11/2021 – 11/2023

#### **Application Development Specialist, Accenture**

- Involved in IAM application development for investment banking, designing a user-access dashboard and approval workflows to streamline operations, employing React JS and Material UI.
- Developed investment banking applications using Typescript ReactJS, featuring new financial advisor registration, team management, and investment style tracking that integrated with downstream systems.
- Created a dashboard for financial advisors, teams, and styles using AG Grid library with view and edit functionality.
- Participated in building customer-facing automobile brand websites with features such as product galleries, media carousels, and interactive functionality.
- Enhanced website performance by reducing cumulative layout shift to less than 0.1 as per Google standards, and improved font loading performance to prevent layout shift.
- Trained new hires on frontend topics, including HTML, CSS, JavaScript, TypeScript, ReactJS, and Git.

01/2016 – 11/2021

#### **Associate - Frontend developer, Cognizant Technology Solutions**

- Experience with front-end technologies such as ReactJS, HTML, CSS, SCSS, JavaScript
- Developed front-end dashboard for monitoring daily operation metrics in retail POS stores
- Implemented export to Excel functionality using sheetjs-style and file-saver packages
- Familiarity with Agile development methodologies and version control systems such as Git
- Created automation tool for automatically loading daily missing EJ files into electronic journal system
- Developed tool for efficient loading of missing items into POS systems without manual intervention
- Implemented ORPOS & IBM POS solutions at offshore locations for multiple POS systems
